FQ-FIN-002 01/04/2025 V11

PRICE INCLUDES:

- ✓ Initial consultation and ultrasound examinations during the treatment cycle.
- ✓ The costs associated with the donation (incl. monitoring of donor's cycle, egg collection, medication for the donor and reimbursement of donor's expenses).
- ✓ Tests for HIV, hepatitis B, hepatitis C and syphilis for male partner
- ✓ Sperm analysis + sperm freezing and one year storage
- ✓ ICSI, extended cultivation, assisted hatching if required
- ✓ First embryo transfer
- ✓ **This program guarantees** our patients at least 2 embryos in blastocyst stage assuming that the sperm quality is not qualified as OAT (oligoasthenoteratozoospermia) or worse on the day of the fertilization (according to the WHO). In case that the patient receives only 1 blastocyst and does not become pregnant (confirmed heartbeat), we create at least 1 more embryo in asynchronous cycle (it means that the patient receives at least 1 additional embryo from oocyte of another donor). In case that there is no blastocyst and the patient does not become pregnant (confirmed heartbeat), she's entitled to another cycle with 100% discount.
- ✓ In case of asynchronous cycle, the frozen embryo transfer is charged according to the valid price list. The fee for vitrification is charged in case that there are 2 or more embryos frozen during the asynchronous cycle.
- ✓ **The third cycle** is for free for patients who do not get pregnant (confirmed heartbeat) even after two cycles with donated oocytes (after transfer of all embryos created during these two cycles) and the sperm quality was not qualified as OAT or worse in both cycles (according to the WHO).
- ✓ The patient is entitled to the 3rd cycle free of charge for a period of 12 months from the last embryo transfer.

PRICE DOES NOT INCLUDE:

- × Other additional laboratory methods (according to the recommendation of IVF specialist/embryologist and wishes of the patients).
- × Medication

PAYMENT PROCEDURE:

- **€ 800 upon the treatment date confirmation**
- **€ 5 100** on the day of the donor's egg collection at the latest.
- Fee for additional laboratory methods is charged on the day of embryo transfer or on the day of freezing of the embryos (depending on what comes first).

LOYALTY PROGRAMME OF GENNET CLINIC

In order to thank our patients for their trust, we have created the GENNET loyalty programme. We greatly appreciate that we are in favour of many of our patients, even in case of an unsuccessful cycle.

The idea is simple: Patients, who are not successful with their treatment and undergo the same treatment type within another 12 months from the last embryo transfer, receive a 10 % discount on their next treatment at our clinic. This discount applies only on full cycles, not on frozen embryo transfers of embryos created in previous IVF/egg donation cycles.
