

The price-list for self-payers is intended for clients who are not insured by any of the health insurance companies in the Czech Republic.

A fixed conversion rate used for payments in € is **25.495** CZK.

- **Surgeries and therapeutic procedures** can be paid in cash or by credit card (EUR, CZK).
- **Medication** can be paid in cash or by credit card (only CZK).

FIRST CONSULTATION

- | | |
|---|--------------|
| ■ CONSULTATION VIA SKYPE/PHONE | 100 € |
| ■ PERSONAL APPOINTMENT AT THE CLINIC | 200 € |

In the event that the client undergoes the treatment at any GENNET clinic, this amount will be deducted from the total cost of the treatment.

- **FEE FOR FURTHER CONSULTATIONS TO THE MEDICAL CYCLE € 50**
 - Personal / phone / skype – 30 minutes

COMPLETE IVF CYCLE

€ 2,400

- **THE PRICE INCLUDES:**
 - Consultation and ultrasound examinations during the treatment cycle
 - Tests for HIV, hepatitis B, hepatitis C and syphilis for both partners (the latest on the day of collection)
 - Oocyte pick-up and general anaesthesia
 - Sperm analysis of the partner
 - [ICSI](#), [extended cultivation](#), ev. [assisted hatching](#)
 - Embryo transfer
- **THE PRICE DOES NOT INCLUDE:**
 - [Other additional laboratory methods](#) (it depends on the recommendation of the physician / embryology specialist and the wishes of the patient)
 - Medication
- **PAYMENT PROCEDURE:**
 - **€ 600** on the first day of stimulation at the latest
 - **€ 600** on the day of egg collection
 - **€ 1,200** on the day of ET or the day of embryo cryopreservation. In the event that the embryo transfer does not take place, this amount will not be charged
 - Additional laboratory methods on the day of ET

- You can choose the following procedure FOR FREE with your IVF cycle:
 - Frozen embryo transfer – with each IVF cycle resulting in embryo transfer, you receive a KET for free
 - This offer is valid only for new patients (patients who were never in treatment at GENNET before)
 - Egg collection must be completed by the end of 2018
 - Entitlement to KET for free is only when there are frozen embryos left from the IVF cycle
 - KET must be completed 6 months after the embryo transfer at the latest
 - KET for free can be used only when the IVF cycle itself failed, i.e. fetal cardiac action was not confirmed
 - The price of KET cannot be deducted from the price of IVF cycle when there are no remaining embryos for freezing
 - The number of spots is limited!
 - EmbryoGlue - when you are not interested in receiving frozen embryo transfer for free, you can choose the special laboratory method EmbryoGlue for free with your IVF cycle
 - *The offer cannot be combined, that is, you can either choose a frozen embryo transfer or EmbryoGlue for free with your IVF cycle. Information regarding the selected option must be communicated on the day of embryo transfer at the latest.*

OWN FROZEN EMBRYO TRANSFER CYCLE

€ 600

- THE PRICE INCLUDES:
 - Consultation and ultrasound examinations during the treatment cycle
 - Preparing the embryos, [extended cultivation](#) into the blastocyst stage, possibly [assisted hatching](#)
 - Embryo transfer
- THE PRICE DOES NOT INCLUDE:
 - Medication and [other additional laboratory methods](#) (it depends on the recommendation of the physician and the wishes of the patient)

CYCLE WITH OOCYTE FREEZING

€1,000

- THE PRICE INCLUDES:
 - Consultation and ultrasound examinations during the treatment cycle
 - Tests for HIV, hepatitis B, hepatitis C and syphilis for the client (the latest on the day of collection)
 - Oocyte pick-up and general anaesthesia
 - Oocyte vitrification (2 straw - 4 eggs)
 - Preservation of eggs / embryos for 1 year
- THE PRICE DOES NOT INCLUDE:
 - Each additional 1 straw (2 eggs) **€ 22**
 - Medication

CYCLE WITH DONATED EGGS WITH GUARANTEE

€ 4,900

- THE PRICE INCLUDES:
 - Consultation and ultrasound examinations during the treatment cycle
 - Costs associated with the stimulation of the donor (monitoring of the donor's cycle and obtaining eggs, the medication for the donor, reimbursement of a donor)

- Tests for HIV, hepatitis B, hepatitis C and syphilis for the client's partner
- Partner's sperm analysis + freezing and preservation for 1 year
- [ICSI](#), [extended cultivation](#), ev. [assisted hatching](#)
- Embryo transfer
- **The guarantee program** secures that the client receives at least 6 mature oocytes from the donor and afterwards 2 embryos which are suitable for transfer (3rd day of cultivation). All this on condition that the sperm quality is sufficient (normozoospermia). If we fail to comply with this guarantee and the client does not become pregnant (confirmed heartbeat), we automatically offer the client another cycle for free.
- **Third cycle for free** for clients who do not become pregnant (confirmed heartbeat) in our clinic even after two cycles with donated eggs (after transfer of all embryos produced during these cycles), provided that the semen quality was sufficient in both cases (normozoospermia).
- **THE PRICE DOES NOT INCLUDE:**
 - [Other additional laboratory methods](#) (it depends on the recommendation of the physician / embryology specialist and the wishes of the patient)
 - Medication

The deposit of € 500 is payable on the day of the confirmation of the treatment date and will be deducted from the final amount if the client undergoes the treatment.

The surcharge for the cycle shall be paid no later than 10 weeks before the puncture of the donor.

- **You can choose the following procedure FOR FREE with your IVF cycle with donor eggs:**
 - **Frozen embryo transfer – with each IVF cycle resulting in embryo transfer, you receive a KET for free**
 - This offer is valid only for new patients (patients who were never in treatment at GENNET before)
 - Donor's egg collection must be completed by the end of March 2019
 - Entitlement to KET for free is only when there are frozen embryos left from the IVF cycle with donor eggs
 - KET must be completed 6 months after the embryo transfer at the latest
 - KET for free can be used only when the IVF cycle with donor eggs itself failed, i.e. fetal cardiac action was not confirmed
 - The price of KET cannot be deducted from the price of IVF cycle with donor eggs when there are no remaining embryos for freezing
 - The number of spots is limited!
 - **EmbryoGlue - when you are not interested in receiving frozen embryo transfer for free, you can choose the special laboratory method EmbryoGlue for free with your IVF cycle**
 - *The offer cannot be combined, that is, you can either choose a frozen embryo transfer or EmbryoGlue for free with your IVF cycle with donor eggs. Information regarding the selected option must be communicated on the day of embryo transfer at the latest.*

CYCLE WITH FROZEN DONATED EMBRYO WITH GUARANTEE

- **THE PRICE INCLUDES:**
 - Consultation and ultrasound examinations during the treatment cycle
 - The costs associated with the donation (incl. the medication for the donor and examinations)
 - **Price per 1 embryo € 1,300**
 - **Price per 2 embryos € 2,600**
 - **Guarantee of an embryo** suitable for transfer on 5th day of cultivation (blastocyst) + assisted hatching if necessary.
 - **Guaranteed priority order** in the case of unsuccessful thawing of embryos. The payment is only charged for actually transferred embryos
 - **Third cycle free of charge** if the client does not become pregnant (confirmed heartbeat) in our clinic

even after two cycles with donated embryos, provided that there were two blastocysts transferred each time during the 1st and 2nd cycle with donated frozen embryos. The client is thus entitled to a transfer of two blastocysts free of charge in the third cycle.

■ THE PRICE DOES NOT INCLUDE:

- [Other additional laboratory methods](#) (it depends on the recommendation of the physician / embryology specialist and the wishes of the patient)
- Medication

The deposit of € 500 is payable on the day of the confirmation of the treatment date and will be deducted from the final amount if the client undergoes the treatment.

SURROGACY

- When using a surrogate mother, there is a surcharge to the selected therapeutic cycle of **€ 1,300**
- This surcharge includes the preparation and the treatment of the surrogate mother without drugs and blood tests. Surcharge also includes one consultation with legal counsels.
- Requirements for implementation of surrogacy:
 - Medical indication
 - At least one of the partners must be biological parent of the child
 - Both the surrogate mother and the mother of the future child must have Czech citizenship
 - Approval of GENNET ethics committee
 -

LOYALTY PROGRAMME OF GENNET CLINIC

In order to thank our clients for their trust, we have created the GENNET loyalty programme. We greatly appreciate that we are in favour of many of our clients, even in case of an unsuccessful cycle.

The idea is simple: after every cycle our clients receive a voucher for a discount of 10% in the next cycle. Should they not use the voucher themselves, they can donate it to their friends. The voucher is valid for 12 months from the date of issue.

ADDITIONAL LABORATORY METHODS AND PROCEDURES
