

IVF price list

+ Self-payers

This price list applies to clients who are not insured by any health insurance provider in the Czech Republic.

All service prices are listed in EUR and can be paid by credit/debit card or in cash. If a payment is made in CZK, the current exchange rate published by the Czech National Bank will be used.

Prices for stimulation medications are fixed in CZK and must be paid in CZK.

At our clinics it is possible to pay in cash or by card.

In the case of treatment with frozen donor eggs, the egg reservation is valid for 3 months. The reservation can be extended once by 3 months for a fee of € 250.

If any laboratory methods or services included in the package are not used, patients are not entitled to financial compensation.

Conditions for the 2 blastocyst guarantee:

- The quality of the sperm used for fertilization must not be classified as OAT (oligoasthenoteratozoospermia) or worse according to WHO standards.
- If no blastocyst is created, the patient is entitled to a new cycle with donor eggs free of charge.
- If only 1 blastocyst is created and the patient does not become pregnant (no fetal heartbeat confirmed), an additional embryo will be created asynchronously using eggs from another donor.

Conditions for the 3rd cycle free of charge:

- Completion of 2 cycles with donor eggs
- Use of all embryos created from these two cycles
- No clinical pregnancy (no fetal heartbeat confirmed after the transfer of any embryo created from these cycles)
- Appropriate sperm quality - the quality of the sperm used for fertilization in these two cycles was not classified as OAT (oligoasthenoteratozoospermia) or worse according to WHO standards
- The 3rd cycle free of charge can be used within 12 months of the last embryo transfer
